First processing results from Terensai exploration area

AltynGold is pleased to announce the results from the first batch of ore from Terensai Exploration Area

During 4Q20 Sekisovskaya Gold Beneficiation Plant processed the first batch of ore (1,794 tons dry weight) received from the open-cut mining operations at the Terensai contract area.

The processed ore shows an average grade of 1.8 g/t and a recovery rate of 81%.

The above results confirm the prior data included in Terensai's feasibility study.
